

Visual analyses for guiding compound selection and design

Written by Ed Champness

Friday, 26 March 2010 14:56 - Last Updated Thursday, 17 October 2013 15:12

In this presentation Ed Champness considers the decision-making challenges faced by drug discovery scientists and presents some visual analyses that can be used to help answer some of the common questions that are asked.

Ed gave this presentation at the [ACS](#) Spring meeting 2010 in San Francisco.

These are the slides that Ed presented.

A copy of Ed's slides is available as a [PDF](#) file.
